Professional Summary

Computer Engineering graduate with a strong foundation in software development, system optimization, and data analysis. Passionate about leveraging technology to solve real-world problems and enhance system efficiency. I am skilled in programming, network security, and cloud computing. Adept at collaborating with cross-functional teams to develop innovative solutions.

Work Experience

Software Engineer
ABC Company | 2021 - Present

- Developed and optimized software applications, improving system performance by 30%.
- Collaborated with cross-functional teams to design scalable and efficient software solutions.
- Conducted code reviews and implemented best practices to enhance software quality.
- Managed cloud-based deployments and ensured seamless system integration.

IT Support Specialist
XYZ Corporation | 2018 - 2021

- Provided technical support and troubleshooting for hardware and software issues.
- Assisted in network administration and cybersecurity initiatives.
- Developed scripts to automate repetitive tasks, increasing operational efficiency.
- Conducted system updates and maintained IT documentation.

Education

Bachelor's Degree in Computer Engineering
Üsküdar Üniversitesi | 2020 - 2024

Skills

- Programming (Python, Java, C++)

- Software Development & Debugging
- Database Management (SQL, NoSQL)
- Network Security & Cybersecurity
- Cloud Computing (AWS, Azure)
- AI & Machine Learning Fundamentals
- System Optimization & Automation

Certifications

- AWS Certified Solutions Architect
- Cisco Certified Network Associate (CCNA)

Languages

- English (Fluent)
- Somali (Fluent)
- Swahili (Fluent)
- Turkish (Intermediate)

Projects

AI-Powered Chatbot

- Developed a chatbot using Python and NLP to automate customer service responses.
- Integrated the chatbot with cloud services, reducing response time by 50%.

Network Security Enhancement

- Designed and implemented security protocols to safeguard company networks from cyber threats.
- Conducted penetration testing and vulnerability assessments to enhance system security.

Volunteer Experience

Tech Mentor
Non-Profit Organization | 2020 - Present

- Provided mentorship and guidance to aspiring software developers and IT professionals.
- Conducted workshops on programming and cybersecurity best practices.

Personal Interests

- Coding and open-source development
- Cybersecurity research
- Gaming and AI applications
- Blogging about tech trends
